

CEDAR COUNTY BOARD OF HEALTH
February 10, 2026

9:00AM
Courthouse Board of Supervisors Room

Present:

Alan Beyer, DVM, Chair
Brad Gaul
Jane Caes, RN, Vice chair

Staff and visitors:

Stefanie Wagaman, RN, MSN, OCN
Ashley Hansen
Board of supervisor's members
Members of the public

The Board of supervisors' meeting was already in session which is where this meeting took part of. Discussion began at 0845. Phil Larue explained the duties of the Environmental department and the amount of time it would take to make things work. Jon Bell asked how much time was spent on Environmental. Phil said it is about 75 percent Environmental and 25% Zoning. Phil LaRue said the day-to-day operations change. Jeff Kauffman asked what it would like to add Environmental to public health. Stefanie Wagaman said she could potentially do it with the addition of one employee. Phil explained that we would need to do pool inspections, tattoo inspections, septic permits, well permits, and well water testing. Phil explained the education that it took for each of these inspections that need done. Brad Gaul asked If the state would ever take any of these programs back over. Bruce Barnhart suggested keeping it in-house, so people don't have a huge wait time on contacting the state to get things. Discussion continued with different options of what could be done. Meeting adjourned at 0937.

Respectfully Submitted,

Ashley Hansen
Business and Quality Manager
