PUBLIC COMMENTS: None

Director Petersen updated the board on the Bennett cabin project. Many things have been completed in the last month. There is approximately 12,000 in ARPA funds left to spend for the project. This should cover the rest of the big expenses, and we are on track for completion by the end of the year.

Director Petersen updated the board on a request from Hoosier Creek Conservation and Retriever Assoc to enter a partnership to put up Wood Duck Houses on CCCB property. CCCB currently has 26 wood duck houses out on the areas. Discussion was held on who would maintain and pay for the new houses since they need to be checked and cleaned yearly. Motion from Moeller to move forward with the MOU from HCCRA seconded by Rouse Motion carried.

Director Petersen updated the board on the approximately 15 acres of land adjoining Cedar Valley Park to the North. The property currently does not have an official owner. Records indicate it was last owned by Iowa Land and Building; this is the same LO that gave much of what is currently Cedar Valley Park. Director Petersen feels that this piece of land was somehow forgotten when the rest was turned over to the county. CCCB met with County Attorney Blank and he advised CCCB to talk to the other adjoining LO and see if they felt this was their property, neither felt it was. The next step is to have an official title search completed. Which we are in the process of doing. Director Petersen will update the board when new information is known.

EE update from Subert and Wilbourne

Maintenance update from Brown

Haub moved to adjourn Moeller seconded motion approved at 6:51pm.

Next meeting October 12th, 2026 at Massillon Park.
